PERSONAL SUMMARY

A **motivated** and **detail-oriented Computer Science student** with strong foundational knowledge in Java, JavaScript, HTML and CSS. **Passionate** about developing efficient and user-friendly web applications. Eager to leverage technical skill in software development.

EXPERIENCE

GETS COMMERCE.

2019-2022

Provided online customer support by assisting users with inquiries, troubleshooting issues, and resolving complaints to ensure customer satisfaction. Managed and updated product listings to maintain accurate, appealing presentations. Leveraged problem-solving skills to identify recurring issues and improve support efficiency, contributing to a seamless customer experience.

PROJECTS

PERSONAL PORTFOLIO WEBSITE

Designed and developed a personal portfolio website using **React, HTML, and CSS** to showcase my skills and projects. Focused on creating an **intuitive and visually engaging user interface**, implementing responsive design to ensure accessibility across devices. Integrated interactive components to highlight my proficiency in front-end development and attention to detail.

TECH WEEK SCHEDULE APPLICATION

Developed an Android application using **Android Studio**, enabling users to select a day of the week to view scheduled Tech Week activities. Integrated Firebase for seamless real-time data management and retrieval. Designed an intuitive, user-friendly interface to enhance user experience and facilitate easy navigation through the schedule.
